## Product Note

## Extranet API Doctor – Your NSE Data Access Solution

The NSE is making changes to data access, and we have the perfect solution for you!

### Current Access:

- ◆ Access common and member-specific data via Lease Lines (IP address) and Internet FTP (ftp://ftp.connect2nse.com) with specific login credentials.
- ◆ Extranet folder access through the Member Portal is available.

### Upcoming Changes:

- ◆ Discontinuation of Internet FTP access (ftp://ftp.connect2nse.com) for Internet users.
- ◆ Guest login credentials for lease line and Internet FTP will be discontinued.

### Introducing APIdoctor – Your Ultimate Solution:

- ◆ APIdoctor simplifies data access with its cutting- edge Extranet API 2.0.
- ◆ Effortlessly copy files between your computer and NSE servers.
- ◆ Enjoy a secure, efficient desktop application (EXE version) for a seamless experience.
- ◆ Access all required files with a single subscription.

### Why Choose APIdoctor?

- ◆ Streamlined access with an intuitive user interface.
- ◆ Say goodbye to complex web applications.
- ◆ Revolutionise your NSE member experience.

### Get Started Today:

- ◆ Explore the registration process and FAQs here: [Registration Procss and FAQ](#)

## Key Features of Extranet API Doctor:

1

### **Standalone Desktop Application (EXE):**

Enjoy the convenience of a standalone desktop application that doesn't require a database.

2

### **Simple Installation:**

Install Extranet API Doctor directly on your machine for quick and easy access.

3

### **Comprehensive Data Access:**

Access all NSE files, including both common files and member-specific files, all in one place.

4

### **User-Friendly Interface:**

The simple user interface is designed for ease of use, making it accessible to individuals of all levels of expertise, similar to desktop browsing.

5

### **Enhanced Security:**

Our desktop application (EXE version) provides a higher level of security compared to web-based solutions. Your files remain safe, including sensitive ones like surveillance and risk files.

6

### **Direct NSE Server Access:**

Enjoy direct access from NSE servers to your computer, with no involvement of external machines.

7

### **Automated File Downloads:**

Set up automatic downloads of common and member-specific files at specified intervals from various segments, including CM, FO, CD, CO, SLB, MFSS, DEBT, and WDM.

8

### **Efficient Data Search:**

Easily search through data and folders using an array of filters for quick and precise results.

9

### **Secure Login:**

Log in directly using your NSE credentials for added security.

10

### **One-Click Daily Downloads:**

Simplify your daily routine with one-click downloads for your daily file needs.

11

### **Robust Search and Sorting:**

Utilise powerful search and sorting options to quickly find the files you require.

12

### **Quick Date-Based Downloads:**

Download all files with a particular date in the opened directory effortlessly.

**13****Selection-Based Downloads:**

Choose specific files or folders for download within a directory.

**14****Customised Path Dictionary:**

Create your own paths dictionary for frequently accessed files, simplifying downloads with a single click.

**15****Auto-Download Rules:**

Set up rules for automated downloads tailored to your preferences.

**16****Scheduled Downloads:**

Specify which days to avoid downloading (e.g., Saturdays or Sundays) to suit your schedule.

**17****Holiday Master:**

Manage holidays within the application for further customization.

**18****Download Time Frames:**

Define time frames for automated downloads to optimise efficiency.

**19****Easy Licensing:**

Licence the tool with a single click for hassle-free access.

**20****Portability:**

Use Extranet API Doctor across multiple Windows machines for flexibility.

**21****Exchange-Structured File Downloads:**

Download files according to the Exchange structure, ensuring seamless integration.

Extranet API Doctor offers a comprehensive and user-friendly solution for accessing NSE data, making your experience efficient and secure.
